

## AIR CURTAINS

### CROSS-FLOW HIGH PERFORMANCE

High Performance Air Curtains save energy by minimizing heated and air-conditioned air loss through open doorways. Powerful airflow repels insects, dust, odors and prevents the outside air from entering indoors. Air curtains can be mounted above or next to doors using included hardware.

#### FEATURES:

- Metal Housing with durable powder spray coating
- Unique Arc design and slim body
- Highly efficient with low noise levels
- Simple installation
- Available in 3, 4 and 5 FT
- Color White
- Includes remote control
- CE listed
